

## EMK Capital acquires Heda Security in Sweden

### Garda Security Group further strengthens its position in the Nordics

**26 September 2023. EMK Capital has now acquired Heda Security, which will now become part of the Garda Sikring Group. With this, the company strengthens its position as the leading total provider of security and area protection in the Nordic region, with companies in Norway, Denmark, Finland, and Sweden.**

Heda Security offers everything within mechanical and technical security, both standalone solutions and complex integrated security systems, as well as consulting, planning, service, and emergency preparedness. With this acquisition, the Garda Sikring Group is now well-established in the Swedish market.

Managing Director of Heda Security, Håkan Fälting, is proud of the company's continuous development since its founding 30 years ago and looks forward to further developing the company with the new owner. "We are the leading provider of area protection with a focus on high security for the public sector and businesses. We are represented with 15 branches in Sweden, our own company in Finland, Teknoinfra, and we have a total of 220 employees and a turnover of 700 million SEK. With a new and strong owner in place, we gain access to modern solutions and digital tools, as well as new markets and expertise in various areas, such as ESG. This allows us more quickly to further develop and realize many of our planned innovation and development projects together. We strongly identify with Garda Sikring's vision and their values, and we look forward to building the best team together," says Håkan Fälting.

"We are now even more prepared to offer more combined and complex security solutions in a time where society is affected by commotion and uncertainty. Now we begin the work of creating and leveraging synergies and opportunities for us, our partners, and, most importantly, our customers who will have access to new products and additional expertise," says Jon Ola Stokke. With Heda Security as part of the Garda Sikring Group, the number of employees increases to approximately 760 and the turnover to over 2 billion.
